

To search for drainage district files, enter DD and then the district number. For example, to search for drainage district 123, enter DD 123 in the search bar.

Use the tips below to refine your search:

#### QUICK TIPS

##### WILDCARD

Use the \* as a wildcard at the end of partial words to emulate a "begins with" search.

Example: Jam\* for James and Jamie.

At least two characters in the entire search are required for a wildcard search.

Example: smith j\* or jo\*

##### QUOTES

Use quotes to keep search terms together in the results.

Example: "River Valley" will result in records where River and Valley are adjacent in the same field.

##### HELP

See the HELP link in the footer below for more details.

The expanded search tool allow you to search by specific document types.
