SUBJECT: Karl Benjegerdes Manure Management Plan

This report is to make you aware of concerns regarding a Manure Management Plan Annual Update received by this office from the **Karl Benjegerdes** swine operation. This report is being submitted according to Resolution 2003-123 **A Resolution Adopting Policy for the Receipt, Review and Comment on Manure Management Plans Received by the Cerro Gordo County Board of Supervisors**. Within seven (7) days of receipt of the manure management plan the Environmental Service Manager shall review the Manure Management Plan and prepare a report to the Board of Supervisors detailing concerns to forward to the Iowa Department of Natural Resources.

The confinement unit is located at **13484 330th Street, in Section 6 of Lime Creek Township**. The facility was initially built in October 2001 and expanded in 2005 and 2014. The chart below shows the changes in 2014:

	Number of Hogs	Animal Unit Capacity	Annual Manure Production
Pre-2014 Operation	2,400	960	758,160
Current Operation	4,000	1,600	1,263,600

Manure will be applied on a total of 692 acres on six fields in Sections 6, 7, and 8 of Lime Creek Township. The plan indicates that no changes have been made since last year. The concerns are listed below:

- A tributary to Wharam Creek and its corresponding flood plain abuts the manure application area in the NW ¼ of Section 7 of Lime Creek Township.
- A small waterway dissects the application area in the NW ¼ of Section 7 of Lime Creek Township.
- Pine Creek Golf Club is about one mile from the manure application area.
- Bruns Addition and Country Estates Addition are about 1¼ miles from the manure application area.
- Freeman Preserve is about 1½ miles from the manure application area.
- Spring Creek Preserve, Lime Creek Nature Center and Winnebago Heights are all less than three miles away from the manure application area.
